The Government Inspector shall advise the Railway Board of the reason why an enquiry has not been held by himself. If the Government Inspector, after examination of the joint enquiry proceedings, considers that an enquiry should be held by himself, he shall, as soon as possible, notify the Railway Board and the Agent or Manager of the Railway concerned, of his intention to hold an enquiry and shall at the same time fix and communicate the date, time and place for the enquiry.

When the Government Inspector recommends the publication of such a report, it shall be in the form adopted by the Inspecting Officers of the Board of Trade; when not recommended for publication, it may be in the form of a letter explaining, as briefly as possible, the special features which the Government Inspector desires to bring to notice.

11. The Government Inspector shall, as far as possible, assist any Magistrate making an enquiry under rule 22 or a judicial enquiry, whenever he may be called upon to do so.

12. Nothing in these rules shall be deemed to limit or otherwise affect the exercise of any of the powers conferred on Government Inspectors by section 5 of the Act.

Duties of the Agent or Manager, and of the Head of the department concerned.

13. Whenever any accident has occurred in the course of working a railway, the Agent or Manager shall give all reasonable aid to the District Magistrate or the Magistrate appointed or deputed under rule 22, and to the Government Inspector, Medical Officers, the police, and others concerned to enable them promptly to reach the scene of the accident, and shall assist those authorities in making enquiries and in obtaining evidence as to the cause of the accident.

15. When any enquiry, under rule 7 or rule 22, or any judicial enquiry is being made, the Agent or Manager shall arrange for the attendance, as long as may be necessary, at the office or place of

enquiry, of all railway servants whose evidence is likely to be required. If the Agent or Manager desires to prosecute any person or persons, he shall immediately forward a copy of the report, together with a statement of the persons he wishes to prosecute, to the District Magistrate of the district in which the accident occurred, or to such other officer as the Local Government may appoint in this behalf.

17. Whenever the report of the Government Inspector points to the necessity for or suggests a change in any of the rules or in the system of working, the Agent or Manager shall, when acknowledging the report, intimate the action which has been taken, or which it is proposed to take, to prevent a recurrence of similar accidents, or shall inform the Government Inspector of his intention to report further on the Government Inspector's proposals.

Provided that such enquiry may be dispensed with—

(a) if an enquiry is to be held by the Government Inspector under rule 7;

(b) if the accident has not been attended with loss of human life, or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property; or

(c) if there is no reasonable doubt as to the cause of the accident; or

(d) if one department of the railway intimates that it accepts all responsibility in the matter.

(2) Where such enquiry is dispensed with, it shall be the duty of the head of the department of the railway responsible for the accident to make such enquiry (to be called a "departmental enquiry") as he may consider necessary and if his staff or the system of working is at fault, to adopt or suggest such measures as he may consider expedient for preventing a recurrence of similar accidents.

19. (1) Whenever a joint enquiry is to be made, the Agent or Manager shall cause notice of the date and hour, at which the enquiry will commence, to be given to the following officers, namely:—

(a) the District Magistrate of the district in which the accident occurred, or such other officer as the Local Government may appoint in this behalf, the Superintendent of Railway Police and the District Superintendent of Police;

(b) the Government Inspector for the section of the Railway on which the accident occurred; and

(c) the officer in charge of the railway police, or if there are no railway police, the officer in charge of the police station in the jurisdiction of which the accident occurred.

(2) The date and hour at which the enquiry will commence shall be fixed, so as to give the officer mentioned in sub-rule (1) sufficient time to reach the place where the enquiry is to be held.

20. (1) As soon as any joint or departmental enquiry has been completed the President of the Committee or the head of the department, as the case may be, shall send to the Agent or Manager a report which in the case of all accidents of the nature described in the explanation to rule 6 must be submitted in the form prescribed by sub-rule (1) of rule 8.

(2) The Agent or Manager shall forward, with his remarks as to the action it is intended to take in regard to the staff responsible for the accident, or for the revision of the rules or the system of working, a copy of such report:—

(a) to the Government Inspector for the section of the railway on which the accident occurred;

(b) if no enquiry or investigation has been made under rule 22 or if a joint or departmental enquiry has been held first, to the Magistrate or officer appointed under clause (c) of sub-rule (1) of rule 19; and

(c) if any judicial enquiry is being made, to the Magistrate making such enquiry.

(3) Such copy shall be accompanied in the case referred to in clause (b) of sub-rule (2), by a statement of the persons, if any, whom the Agent or Manager desires to prosecute, and in the case referred to in clause (c) of the same sub-rule, by a copy of the evidence taken at the enquiry.

21. A copy of reports of enquiries held on accidents not of the nature specified in section 83 of the Act, such as averted collisions, technical accidents, or breaches of block rules, shall be forwarded to the Government Inspector for the section of the Railway on which the accident occurred.

Duties of Magistrates.

22. Whenever an accident, such as is described in section 83 of the Act, has occurred in the course of working a railway, the District Magistrate, or any other Magistrate, who may be appointed in this behalf by the Local Government may, either—

(a) himself make an enquiry into the causes which led to the accident; or

(b) depute a subordinate Magistrate, who, if possible, should be a Magistrate of the first class, to make such an enquiry; or

(c) direct an investigation into the causes which led to the accident to be made by the police.

23. Whenever it is decided to make an enquiry under clause (a) or clause (b) of rule 22, the District Magistrate or other Magistrate appointed as aforesaid or the Magistrate deputed under clause (b) of rule 22, as the case may be, shall proceed to the scene of the accident and conduct the enquiry there, and shall at once advise the Agent or Manager of the railway and the Government Inspector by telegraph of the date and hour at which the enquiry will commence, so as to enable the railway administration to summon the requisite expert evidence.

24. A Magistrate making an enquiry under rule 22, may summon any railway servant, and any other person whose presence he may think necessary, and, after taking the evidence and completing the enquiry, shall, if he considers there are sufficient grounds for a judicial enquiry, take the requisite steps for bringing to trial any person whom he may consider to be criminally liable for the accident. Whenever technical points are involved, the Magistrate should call for the opinion of the Government Inspector or other professional persons.

25. The result of every enquiry or investigation made under rule 22 shall be communicated by the Magistrate to the Agent or Manager of the railway and to the Government Inspector.

26. If, in the course of any judicial enquiry into an accident occurring in the course of working a railway, the Magistrate desires the assistance of the Government Inspector or of the Agent or Manager of the railway, or the attendance of any officer of the railway, to explain any matter relating to railway supervision, management or working, he will issue a requisition to the Agent or Manager for the attendance at court of an officer competent to explain such matter, stating at the same time the nature of the assistance required. In summoning railway servants, the Magistrate will take care not to summon so large a number of the employees, especially of one class, on the same day, as to cause inconvenience to the working of the railway. In the case of very serious accidents it will generally be advisable for the Magistrate to obtain a report, from both the Government Inspector and the Agent or Manager of the railway, in regard to the accident, before finally concluding the judicial enquiry.

27. On the conclusion of any such judicial enquiry the Magistrate shall send a copy of his decision to the Agent or Manager of the railway, and to the Government Inspector, and shall, unless in any case he thinks it unnecessary to do so, report the result of the enquiry to the Local Government.

Duties of Police Officers.

28. (1) The railway police may make an investigation into the causes which led to any accident occurring in the course of working a railway and shall do so—

(a) whenever any such accident is attended with loss of human life, or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property, or has *prima facie* been due to any criminal act or omission; or

(b) whenever the District Magistrate or the Magistrate appointed under rule 22 has given a direction under clause (c) of that rule:

Provided that no such investigation shall be made when an enquiry has been commenced or ordered under clause (a) or clause (b) of rule 22.

(2) The railway police shall report, with as little delay as possible, to the nearest Stationmaster, or, where there is no Stationmaster, to the railway servant in charge of the section of the railway on which the accident has occurred, every accident which may come to their notice occurring in the course of working a railway attended with loss of human life, or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property, or which has *prima facie* been due to any criminal act or omission.

29. (1) Whenever an investigation is to be made by the railway police—

(a) in a case in which an accident is attended with loss of human life or with grievous hurt as defined in the Indian Penal Code, or with serious injury to property; or

(b) in pursuance of direction given under clause (c) of rule 22,

the investigation shall be conducted by the officer in charge of the railway police, or, if that officer should be unable to conduct the investigation himself, then by an officer to be deputed by him.

(2) The officer deputed under sub-rule (1) shall ordinarily be the senior officer available, and shall whenever possible be a Gazetted officer, and shall in no case be of rank lower than that of Inspector:

Provided that the investigation may be carried out by an officer in charge of a police station—

(i) in such a case as is referred to in clause (a) of sub-rule (1) unless loss of life or grievous hurt has been caused to more persons than one or injury to property has been caused to a value exceeding Rs. 10,000, or there is reason to suspect that any servant of the railway has been guilty of neglect of rules; or

(ii) in the case referred to in clause (b) of sub-rule (1) if the District Magistrate so directs.

30. The officer who is to conduct an investigation in pursuance of rule 29 shall proceed without delay to the scene of the accident and conduct the investigation there and shall at once advise the Agent or Manager of the railway and the Traffic Officer of the district by telegraph of the date and hour at which the investigation will commence so that, if possible, the presence of a railway official may be arranged for to watch the proceedings and to aid the officer making the investigation. The absence of a railway official must not, however, be allowed to delay the investigation, which should be made as soon as possible after the accident has taken place.

31. (1) In every case to which rule 29 applies, immediate information shall be given by the railway police to the district police, who if so required, shall afford all necessary assistance and shall, if occasion arise, carry the investigation beyond the limits of the railway premises. But the railway police are primarily entrusted with the duty of carrying on the investigation within such limits.

(2) Subject to any provisions elsewhere contained in these rules, the further prosecution of the case, on the conclusion of the police investigation shall rest with the railway police.

32. The result of every police investigation shall be reported at once to the District Magistrate or other officer appointed in this behalf by the Local Government to the Agent or Manager of the railway or other officer appointed by him, and to the Government Inspector.

33. Where there are no railway police, the duties imposed by rules 28, 29 and 30, sub-rule (2) of rule 31, and rule 32 on the railway police, or on the officer in charge of the railway police, shall be discharged by the district police or by the District Superintendent of Police, as the case may be.

3. Seats and accommodation for the candidates :—

(*a*) Candidates will be permitted to bring with them for their use at the examination hall, their own tables, chairs or stools, if they choose ; provided they take care to see that by so doing, they do not give room to the slightest disturbance being caused in the examination hall.

(*b*) The candidates will be allowed to take their seats in the examination hall five minutes before the appointed hour for the giving out the question paper and supplied with the necessary paper for answering and get their machines ready for work with paper inserted in them and to have their Register numbers at the left hand corner of their answer paper and the particular kind of Typewriter they use at the right hand corner, typed before the question paper is given to them.

4. Candidates are strictly told not to write anything on the question papes itself. Calculations or any other points they wish to note must be written on one of the blank sheets supplied to them and such sheets including the carbon papers should be left on the table.

5 The candidates will, if necessary, be examined *in batches*, but at least every *four* candidates for the Lower grade, at least every *two* candidates for the Higher grade, must have one machine among them.

6. Managers and Instructors of institutions concerned are expected to see that their pupils are supplied with Typewriting machines in proper working order.

7. Managers and instructors will be allowed into the examination hall in the intervals between the various batches to inspect the machines and to remedy any defects. They should take care to see that they do not remain in the examination hall while the question paper is being distributed to the candidates in the examination hall or while their pupils are answering the question papers.

8. If, however, a candidate reports to the Superintendent that his machine has gone out of order, the Superintendent will intimate this to the manager or instructor, if he is waiting outside on the premises, and will permit such manager or instructor to enter the hall (though the candidates may be at work) to inspect the machine and to remedy the defect or to supply another machine. It must, however, be clearly understood that the Superintendent incurs no responsibility in this matter ; his action will be purely *ex gratia*, the whole responsibility resting on the candidate and the manager or instructor.

A similar concession will be allowed in the case of a private candidate, if he has someone outside who is willing to inspect the machine and put it right, etc.

No extra time will be given to candidates to compensate for loss of time while the machine is out of order and being put right.

In the Mufassal.

Heads of institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined should make the necessary arrangements with the Chief Superintendent concerned *two* days before the examination and furnish him with all the necessary information as to the number of candidates and machines and the time at which each batch will attend on the day fixed for the examination.

At Madras.

Lower Grade—Candidate's Hall Ticket.—Tickets of admission specifying the particular batch (first or second and so forth) in which the candidates elect to appear will be issued on Thursday, the 24th April between 11 a.m. and 5 p.m. at the Office of the Commissioner for Government Examinations, Old College, Nungambakkam. These tickets should be shown at the entrance to the examination hall. Candidates who produce tickets will be admitted to the batch specified in the tickets. Candidates who do not provide themselves with tickets cannot claim to be admitted to any particular batch. They will be admitted only, if spare seats are available in the hall, i.e., after seats are reserved for those who have registered their names and obtained tickets for the batch Candidates who do not hold tickets will accordingly have to wait at the entrance to the examination hall from the hour of commencement of the first batch and take their chance of being provided with seats in the first or in any subsequent batch To avoid all inconvenience and possible disappointment, heads of institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined are particularly requested to call at the office on Thursday the 24th April with all the necessary information as to the number and name of candidates that will attend at the particular batch on the day fixed for the examination and obtain tickets of admission accordingly. *No tickets can on any account be sent by post whether to heads of institutions or to private candidates.*

Candidates that have such a separate machine and that do not want to be examined in batches are expected to appear for their examination with the third batch for the Lower grade. **But this does not preclude them from registering their names for that batch and obtaining tickets accordingly.**

Candidates for the *Higher grade* may appear for the first or second batch at their option and no tickets accordingly are issued for this grade.

Instructor's Hall Ticket.—Managers or Instructors of institutions and other persons who wish to be allowed into the examination hall in the intervals between the examinations of the various batches to inspect the machines and remedy any defects, are requested to call at the office on Thursday, the 24th April and have their names registered. Tickets of admission specifying their names, the institutions to which they belong, etc, will be issued to them and these should be produced at the entrance to the examination hall.

IV.—REGULATIONS TO BE OBSERVED BY THE CANDIDATES.

Both at Madras and in the Mofussil.

Attention is particularly drawn to the following rules:—

1. No candidate will be allowed to enter the examination hall unless he wears a clean and decent dress, and in all cases where good manners require it, a suitable covering for the head, nor will he be allowed to keep his shoes on unless they are shoes of English pattern, and socks and trousers are worn also.

No candidate suffering from any contagious disease will be admitted to the examination hall.

2. Candidates are expected to take their seats in the examination hall at least five minutes before the time fixed for giving out the question papers. No candidate will be allowed to quit the examination hall on any day until the expiration of half an hour from the time fixed for the commencement of the examination, and candidates arriving after the expiration of that half hour will not be admitted.

3. No candidate will be allowed to re-enter the examination hall during the hours of examination after once quitting it, nor to leave the hall without finally giving up his answer papers.

4. Strict silence should be maintained in the examination hall.

5. *No candidate will, on any account, be allowed to take into the examination hall, slates, books, or portion of a book, ruled sheets, manuscripts or papers of any kind.* Any candidate detected in the violation of this rule or detected in speaking to, or in any way communicating with or copying from each other and in communicating with any other person outside the examination hall or having recourse to any unfair practices will be sent out of the hall forthwith, and his conduct reported to the Commissioner for disciplinary action. The use of mathematical instruments for drawing figures or ruling lines will, however, be allowed.

6. Candidates are forbidden to note down the answer to any question on the question paper itself; they will not be allowed to take any papers, except their question papers, out of the examination hall.

7. Candidates are forbidden to tear up paper, or to throw ink or papers on the floor. All 'spoilt' copies, etc., should be left on the desk where the candidate has been writing.

8. Candidates may have to write their answers on both sides of the paper supplied to them and they will receive the necessary instruction on this point in the examination hall from the Chief Superintendent of the examinations.

9. No candidate will be allowed to exceed the time assigned to each paper.

10. As soon as candidates have finished writing their answers and wish to give up their answer papers, or at the end of the period prescribed for each particular part of the examination, each should rise from his seat and remain standing until one of the Superintendents has gone up to him and has received his answer paper from him. Any candidate wishing to ask any question of the Superintendent will pursue the same course but will on no account leave his seat.

11. Candidates whose names are not in the printed list furnished to the Chief Superintendent must submit a written declaration through the Chief Superintendent giving full particulars in regard to themselves *including their address*, and furnish such evidence as may be possible of their having applied for admission to the examinations at the proper time and paid the prescribed fees. The answer papers of such candidates will not be valued unless it is clear that the omission of their names is due to no fault of theirs.

12. Candidates are requested to note carefully the particulars printed in the nominal list and satisfy themselves whether they tally with those as given by them in their applications for admission to the examinations, so that any alteration with regard to their initials, name or class of community or any other correction that may appear necessary might be pointed out by them in writing to the Chief Superintendent.

13. Candidates choosing to change their place of examination without previous permission, or appearing at any centre other than the one at which they ought to have appeared according to the notice published in the Gazette, must not expect to have their papers valued or their results published. In all cases where permission has been granted, the memorandum or letter permitting the change should be produced for the satisfaction of the Superintendents.

14. The answer papers should be stitched or pinned together at the upper left hand corner, and the whole folded into *two* lengthwise (not crosswise into four). The register number, the place of examination and also (in the case of the examinations in Shorthand, the particular system adopted) and (in the case of the examinations in Typewriting, the name and number of the Typewriter used) should be written accurately by the candidates on the top right-hand side of the first page of the answer paper, as well as on the top of the paper after it is folded.

[*N.B.*—(1) Candidates should distinctly understand that failure to furnish these particulars may involve the rejection of valuing their answer papers.

(2) Candidates are strictly forbidden to write or type their names on the answer papers.]

15. Any candidate who does not behave properly towards the Chief and Assistant Superintendents of the examinations or is suspected of having had recourse to malpractice of any kind is liable to have his examination invalidated and also to be debarred from appearing again for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit; or, *if the Commissioner is not satisfied for any reason whatever as to the trustworthiness of his results*, he may be required to undergo a re-examination at some future date to be fixed by the Commissioner in any one or more of the subjects of the examination for which he appeared, his success or failure being determined on the results of such re-examination.

16. Candidates are forbidden to communicate with the examiners, should they do so, their answer papers will not be valued and further their conduct will be reported to the Commissioner for any action that he may deem fit.

17. No information can be furnished in regard to the results of a candidate in any subject or in regard to the marks obtained by him or in regard to the particular section or subdivision in which he may have failed. The names of successful candidates in each subject arranged in two classes, first and second, will be published in the *Fort St. George Gazette*. The pass-list for each grade of a subject as published in the Gazette is complete and final. Applications from or on behalf of unsuccessful candidates asking for information as to the cause of failure or for a revaluation of the answer papers will not be attended to.

All such cases should be brought to the rejected list, the reasons for rejection being clearly specified. All candidates recommended by the Deputy Inspectors of Schools should be definitely informed that they should be prepared to undergo a written examination, in Telugu, Mathematics and General Knowledge which will be conducted under the instructions of the District Educational Officer in each of the Training Schools at Guntur, Narasaraopet and Ongole on Thursday the 25th June 1930. All the candidates to be recommended by the Deputy Inspectors of Schools therefore be asked to present themselves with paper and pens of their own at 10 a.m. on the above date. The selection will be made thereafter by the District Educational Officer on the results of the above examination and orders therefor will be issued before 5th July 1930. All candidates should present themselves for the examination with their general educational and conduct certificates in original. This should be notified to all.

9. Candidates holding certificates of having passed the Old Matriculation or the Upper Secondary or the present Intermediate Examination in Arts or those holding completed Secondary School Leaving Certificates with satisfactory record will be admitted for the Secondary grade.

Candidates who hold certificates of having passed the Third Form of a recognized Secondary School or Elementary School-Leaving Certificates (issued by the Deputy Inspectors) of having passed the VIII standard of a recognized Higher Elementary school after undergoing the full prescribed course in each of the lower forms or classes, or those who hold Secondary School-Leaving Certificates with low marks, will be admitted into the Higher Elementary Grade.

N.B.—Candidates who sought admission into the IV Form of a recognized school without successfully undergoing the course prescribed for the III Form or VIII standard of a recognized Secondary or Elementary School, respectively and were declared unfit for promotion and those holding transfer certificates issued by the Headmaster of a Higher Elementary School will not be admitted for the Higher Elementary Training. In the case of the former, the subordinate Inspecting Officers should carefully examine the certificates of all the applicants and furnish full particulars as to whether they got admission into the IV Form by private study or were promoted to that class from the III Form of a recognized Secondary School in the usual course.

Candidates possessing sessional school certificates, or certificates of having passed the V class in a recognized secondary school, or possessing an Elementary School-Leaving Certificate of having passed the V standard of a recognized Elementary school issued by a Deputy Inspector will be admitted into the Lower Elementary Grade. Candidates not possessing these certificates will also be admitted into the Lower Elementary Grade on the strength of certificates of attainments granted by an officer not below the rank of a Deputy Inspector.

10. Applicants for the Secondary grade training should submit along with their applications, a statement of their marks obtained at the Public Examination with the Presidency average in each subject, as well as conduct certificates. In the case of candidates who appeared for the Secondary School-Leaving Certificate Examination more than once, the marks obtained by them in each subject during each year should be furnished separately with their school and Presidency averages in each year.

Applicants for elementary grades should attach to their applications only copies of their certificates, which should be certified by the Deputy Inspectors concerned to the effect that the certificates have been 'compared with the original and found to be correct.' The original certificates should be produced before the Headmasters of Training Schools at the time of admission.

11. The certificates of provisional appointment should always be signed by the recognized Manager or correspondent of schools and not by somebody else on their behalf. The nature of the appointments promised together the post earmarked, should be specified in detail, with the pay of the post also being noted. Vague promises of appointments such as '*will be appointed if vacancies occur*' cannot be accepted.

12. Every student will be on probation for fifty working days.

13. Forms of applications can be had from this office or from Deputy Inspectors on application. If printed forms are not available, cyclostyled or manuscript or typed forms (neatly prepared) may be used.

14. There are hostels attached to all the Government training schools in the district except at Narasaraopet. Candidates who do not live with their families will be compulsorily required to reside in these hostels and to pay hostel advances.

15. The lists and the applications complete in every respect should reach this office on or before 15th May 1930 without fail. Applications and lists which are defective in particulars or are received after the due date will not be considered.

SCHOLARSHIPS.

Applications are invited for Government scholarships tenable at the Engineering College, Benares Hindu University, Benares, in the department of Electrical Engineering. Candidates should have passed an first class or with distinction the Intermediate examination of the Madras or Andhra University or any other examination recognized as equivalent thereto with Mathematics, Physics and Chemistry as optional subjects. Copies of full rules governing the award of scholarships may be obtained on application from the Director of Industries, Post Box No. 432, Chepauk, Madras, to whom applications should be submitted so as to reach him on or before 15th April 1930.

Madras, 25th March 1930.

Industrial scholarships will be awarded by the Director of Industries to pupils learning a trade or profession in recognized industrial schools or to selected apprentices (boys and girls) serving properly arranged apprenticeships for a specified term of training in workshops or mills where provision is made for the apprentices receiving class instruction in working hours for not less than four hours per week in subjects calculated to improve their value as artizans or operatives on completion of their training. The aim of these scholarships is to encourage deserving apprentices and pupils to complete their whole apprenticeship or period of training at one institution or workshop and so to some extent check the present tendency of apprentices to move from workshop to workshop in search of a few annas increase in wages to the detriment of their training and the annoyance of their employers.

2. For the present, sixty scholarships will be awarded per annum tenable in approved schools or workshops or mills for a period of five years of such shorter term of apprenticeship as may be usual in the particular trade or occupation.

The scholarships will be of the value of—

- Rs. 1-8-0 per month during the first year of training.
- Rs. 2 per month during the second year of training.
- Rs. 3 per month during the third year of training.
- Rs. 5 per month during the fourth year of training.
- Rs. 7-8-0 per month during the fifth year of training.

A bonus equivalent to two months' average scholarship will be granted for each year of training to such of the apprentices as satisfactorily complete the whole period of training agreed on at the commencement of the scholarship.

The conditions of award will be as follows:—

(1) All scholarship-holders shall be on probation for six months, after which the scholarship will be confirmed or withdrawn after consideration of a report from the employer or teacher regarding the scholar's work. Scholarships will ordinarily be granted to members of the artizan castes or to others whose families are already in the trade.

(2) No scholarship will be granted to candidates who are over seventeen years of age at the commencement of their apprenticeship, but in the case of Muhammadan candidates, the age-limit may be raised by two years.

(3) The general educational attainments of candidates should be such as would enable them to profit by the training provided. Ordinarily a standard V pass in the primary grade will be regarded as the absolute minimum, but the nature of the trade to be followed, the pecuniary circumstances of the candidate, and his general fitness for the work will be taken into account in deciding whether a candidate is qualified for the scholarship.

(4) The candidate and his guardians must enter into an agreement with the employer that he will faithfully fulfil the conditions of apprenticeship, and, unless prevented by sickness or other circumstances beyond his control, serve the full term of apprenticeship that may be agreed on.

4. The names of selected candidates will be notified by the Director of Industries in the *Fort St. George Gazette*. Each scholarship will come into force on the 1st July 1930.

5. Any scholarship withdrawn during the period for which it is tenable may be re-awarded for the remaining period to any other pupil in the same year of study.

9. A scholarship held in any class or year of apprenticeship shall run from the beginning of the month in which the holder joins the class and shall not be drawn after he ceases to attend the class or leaves the workshop. The scholarships are payable monthly.
